What has been your biggest fear during this pandemic? My biggest fear during this pandemic, has been the thought, of not having enough money, to purchase the bare necessities. This photograph was taken at a fast food chicken restaurant, located on Bloomfield Ave. in Newark, New Jersey.

I once worked in N.Y.C. and Traveled there 5 days a week, or more. I purchased a monthly pass for \$152.00 to travel back and forth to work. I am a tax paying citizen, and pay taxes in New York, and New Jersey. I find daily reminders like this somewhat disturbing. I'm now required to enter through a black door. When I am allowed to enter through the front door, fare boxes are covered, and I'm asked for my ticket.
